

EVELIO MORALES JR.

IT SUPPORT TECHNICIAN | SECURITY ENGINEER

Hardware & Software Support | Vulnerability Management | Cloud Fundamentals

Houston, TX | 281-740-8525 | evmorales101@gmail.com | ev-portfolio.com | [GitHub: EvelioMorales](https://github.com/EvelioMorales)

PROFESSIONAL SUMMARY

CompTIA A+ certified IT professional with hands-on experience across two connected tracks: hardware/software support (diagnostics, deployment, OS installation, device repair, end-user troubleshooting) and cybersecurity as a Security Engineer 1, where vulnerability management and PowerShell-driven remediation cut critical vulnerabilities by 100% for a server team. Comfortable across Windows, macOS, Linux, and iOS, with working knowledge of enterprise networking, Microsoft Azure/AWS, and security frameworks (NIST, PCI-DSS, GDPR, HIPAA). Over nine years of customer-facing experience in fast-paced, compliance-driven environments (healthcare, contact centers) with strong documentation habits and a fast ramp-up on new systems. Bilingual (English/Spanish).

TECHNICAL SKILLS

IT Support & Hardware: Hardware/software diagnostics & deployment, component replacement, OS installation & reinstallation, device repair, firmware updates, mobile device setup, end-user troubleshooting (in person & remote)

Operating Systems: Windows, macOS, Linux, ChromeOS, iOS

Networking: TCP/IP, DNS, DHCP, VPN, firewall/NSG configuration

Vulnerability Management: Tenable.io, DISA STIG compliance audits, CVE/CWE management, CVSS scoring, OWASP Top 10, risk prioritization, vulnerability remediation

Security Operations & Threat Hunting: EDR (Microsoft Defender for Endpoint), Microsoft Sentinel (SIEM), KQL, IoC detection, custom detection rules, incident response

Security Frameworks & Compliance: NIST 800-37 (RMF), NIST 800-53, NIST 800-61, NIST 800-40, NIST Cybersecurity Framework, PCI-DSS, GDPR, HIPAA/PHI, GRC, IAM

Cloud: Microsoft Azure, AWS, Azure Static Web Apps, Terraform, GitHub CI/CD

Scripting & Data: PowerShell, BASH, Python, SQL/MySQL

Platforms & Tools: Salesforce, EMR systems, Microsoft 365, Git, GitHub, VS Code

Electronics: Automotive audio/electronics installation, wiring, backup cameras, vehicle lighting systems

CERTIFICATIONS & TRAINING

CompTIA A+ | Microsoft Azure Fundamentals (AZ-900) | Google Cybersecurity Certificate | Qualys Vulnerability Management Foundation | GRC Mastery | Let's Defend SOC Analyst Training (In Progress)

SELECTED TECHNICAL PROJECTS

- **Vulnerability Management & Threat Hunting Projects (GitHub: EvelioMorales)** — Hands-on labs simulating vulnerability scanning, threat hunting, and incident detection using Tenable.io, Microsoft Sentinel (SIEM), Microsoft Defender for Endpoint (EDR), Azure VMs, and KQL.
- **Azure Static Portfolio Website** — Deployed a personal portfolio site using Azure Static Web Apps and GitHub CI/CD; configured a custom domain and DNS routing.
- **AWS IAM Security & EC2 Environment Segmentation** — Built a hands-on AWS project focused on identity and access management controls and environment segmentation.
- **Terraform / Cloud Infrastructure Labs** — Built Azure and AWS lab environments using infrastructure-as-code workflows with Git/GitHub version control.

PROFESSIONAL EXPERIENCE

Log(N) Pacific — Security Engineer 1

Remote | Feb 2026 – Present

Vulnerability Management

- Conducted vulnerability scans and risk-prioritized remediation using Tenable across Windows and Linux environments, contributing to a 100% reduction in critical, 90% in high, and 76% in medium vulnerabilities for the server team.
- Performed secure configuration and DISA STIG compliance audits with Tenable to meet industry security standards.

- Automated remediation and STIG implementation using PowerShell to resolve critical vulnerabilities at scale.
- Built rapport and transparency with the server team to align remediation timelines with business need.

Security Operations

- Performed threat hunting with EDR, detecting indicators of compromise from brute-force attacks, data exfiltration, and ransomware activity.
- Developed custom detection rules in Microsoft Defender for Endpoint to automate isolation and investigation of compromised systems.
- Reduced brute-force incidents by 100% by implementing inbound NSG/firewall rules to limit internet exposure.
- Built Microsoft Sentinel dashboards using KQL to monitor logon failures and malicious traffic with threat intelligence.
- Designed and published advanced threat hunting scenarios for incident response tabletop exercises.

Texas Children's Hospital — Contact Center Representative / Scheduler

Houston, TX | Apr 2025 – Aug 2025

- Managed high-volume inbound and outbound calls, scheduling requests, and account inquiries in a fast-paced healthcare environment.
- Documented patient interactions accurately in EMR and computer systems; tracked and resolved outstanding call-backs.
- Maintained HIPAA/PHI compliance while adapting quickly to changing processes and workflows.

Harris Health Services — Customer Service Advocate I

Houston, TX | Jan 2023 – May 2024

- Resolved health-plan inquiries by navigating multiple cloud-based applications and Salesforce.
- Maintained accurate documentation and HIPAA compliance; coordinated follow-up on complex cases.

The Sound Dr'z — Automotive Electronics Installer / Appointment Setter

Houston, TX | Jan 2021 – Jan 2023

- Installed and wired automotive audio and electronics, including head units, amplifiers, speakers, backup cameras, and vehicle lighting systems.
- Tested installed equipment for proper operation and troubleshoot wiring issues.
- Managed customer calls, quotes, scheduling, and communication on installation options and timelines.

Stericycle — Customer Service Representative

North Richland Hills, TX | Jan 2020 – Dec 2020

- Processed inbound service calls and entered service data into company systems; coordinated dispatch logistics with funeral homes.

A&O Repairs — Customer Service / Computer & Device Repair

Houston, TX | Jan 2017 – Nov 2019

- Diagnosed and repaired hardware and software issues across desktops, laptops, tablets, smartphones, and gaming consoles (PlayStation/Xbox).
- Replaced internal components and performed OS installations, reinstallations, and firmware updates.
- Applied systematic troubleshooting and post-repair testing to identify root causes and confirm device functionality.
- Translated technical issues and repair options into clear, non-technical explanations for customers.

ADDITIONAL EXPERIENCE

United Healthcare — Client Services Representative (*Houston, TX, Sep 2016 – Jan 2017*): Handled inbound health-plan inquiries across multiple software applications while maintaining HIPAA compliance.

Xerox / SunTrust (Contract) — Customer Service Representative (*Houston, TX, Jan 2016 – Aug 2016*): Conducted high-volume outbound customer calls and accurately documented customer interactions.

Office Depot — Customer Service Representative (*El Salvador, Jan 2007 – Dec 2015*): Supported customers by phone with product searches, order entry, and account questions; de-escalated issues using online and proprietary systems.

EDUCATION

High School Diploma — Completed January 2026
